STRIP LED 5050 RGB 14,4 W/mt IP65
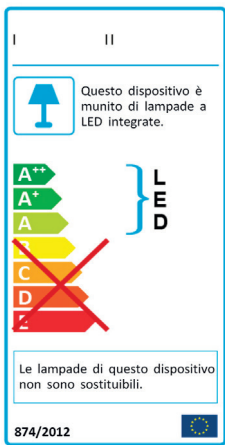

Led type	**5050 SMD**
Power	**14,4 W/mt**
Cut	**cm**
IP	**IP65**
Led quantity	**300**
Continuous connection	**5 mt**
Warranty	**2 years**

CE RoHS UL CRI >80

Model Number	Description	Color	Voltage	Lumen/mt
14.4W24V65RGB5050	Strip led 60 led/mt 5050 RGB	RGB	24 V	470

SAFETY INFORMATION

- The strip itself and all its components should not be mechanically stressed.
- Assembly must not damage or destroy conducting paths on the circuit board.
- Correct electrical polarity needs to be observed. Wrong polarity may destroy the strip.
- Serial connection is not recommended. Unbalanced voltage drop can cause hazardous overload and damage the strip.
- Pay attention to standard ESD precautions when installing the strip.
- Installation of LED ribbon (with power supplies) needs to be made with regard to all applicable electrical and safety standards. Only qualified personnel should be allowed to perform installations.

APPLICATION

- Cove lighting
- Architectural lihts for canopy, corridor, window, archway
- Backlight or edge lighting for signage
- DIY lights for home use
- Decorative lights for holiday, event, show, exhibition
- Path and contour marking

ADVANTAGES

- Eco friendly
- Long life span
- Complete connection accessories
- No need of costant-current power feed
- Low power consumption

CIRCUIT DRAWINGS
