

STRIP LED 3014 IP20 17,2 W/mt

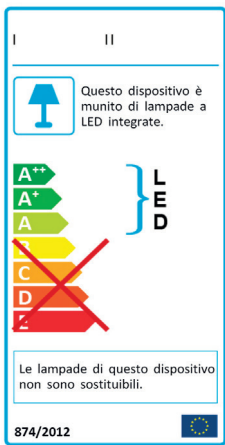

Led type	3014 EPISTAR
Power	17,2 W/mt
Cut	5 cm
IP	IP20
Led quantity	192
Continuous connection	5 mt
Warranty	2 years

Model Number	Description	Color	Voltage	Lumen/mt
17.2W24V00NW2014	Strip led 192 led/mt 3014 EPISTAR natural white	4000 - 4500 K	24 V	2370
17.2W24V00WW2014	Strip led 192 led/mt 3014 EPISTAR warm white	2700 - 3000 K	24 V	2200

SAFETY INFORMATION

- The strip itself and all its components should not be mechanically stressed.
- Assembly must not damage or destroy conducting paths on the circuit board.
- Correct electrical polarity needs to be observed. Wrong polarity may destroy the strip.
- Serial connection is not recommended. Unbalanced voltage drop can cause hazardous overload and damage the strip.
- Pay attention to standard ESD precautions when installing the strip.
- Installation of LED ribbon (with power supplies) needs to be made with regard to all applicable electrical and safety standards. Only qualified personnel should be allowed to perform installations.

APPLICATION

- Cove lighting
- Architectural lights for canopy, corridor, window, archway
- Backlight or edge lighting for signage
- DIY lights for home use
- Decorative lights for holiday, event, show, exhibition
- Path and contour marking

ADVANTAGES

- Eco friendly
- Long life span
- Complete connection accessories
- No need of constant-current power feed
- Low power consumption
